Summary

Computer Science graduate from Soran University (ranked 1st in class) with strong academic and practical experience in AI/ML, programming, and cloud technologies. Skilled in Dart, C#, Python, and data analysis, with a proven record of leadership through teaching and volunteer work. First-place winner in the Global Solutions Sustainability Challenge (IREX) for developing an innovative sustainable tourism project

Experience

- **Lecturer – Zagros Institute (Sept 2025 – Present)**
Teaching foundational computer network and programming concepts to undergraduate students.
- **Volunteer – Branch Administrator , Hasar Organization for Climate Change (2022 – Present)**
Coordinated branch operations and supported volunteer training and community engagement events to promote employability and technical skill development.
- **Global Solutions Program, IREX (2024 Dec – 8 weeks)**
Participated as a member of the Soran University team in the Global Solutions Sustainability Challenge, where our project Hospitium won first place for promoting sustainable tourism through cultural exchange and community engagement.
- **AI/ML Intern – Ovania Company (Oct 2024 – Dec 2024)**
 - Developed and analyzed AI models for real-world applications.
 - Gained hands-on experience in practical machine learning workflows.
- **Volunteer – Career Development Center (CDC) , Soran University (2023 – 2025)**
Supported student training and career events, promoting employability and technical skill development.

Technical Skills

- **Programming:** Dart, C#, Python
- **Frameworks:** Flutter, Windows Forms
- **Data Analysis:** Power BI, R
- **Database Management:** SQL, SQLite
- **Design:** Figma (UI/UX)
- **Cloud & DevOps:** Google Cloud Platform, VPS configuration & deployment, GitHub
- **Networking & Systems Administration**
- **Soft Skills:** Teamwork, Problem-Solving, Communication, Time Management

Education

- **Soran University – Bachelor of Computer Science (2021 – June 2025)**
Coursework: Artificial Intelligence, Data Structures, Computer Networks, Database Systems, ranked 1st in class.
- **Exchange Semester – Sapienza University of Rome, Italy (Spring 2025):** Focused on AI, international collaboration, and computer science research.
- **Soran Computer Institute – Diploma in Network Department (2016 – June 2021)**
Coursework: Server , Computer Networks, Database Systems, ranked 3st in class
